## Superintendent's Highlights

The Mission of the District continues to be "to provide adequate time and instruction, in the nurturing environment, so that all students can learn".

## Progress Towards Meeting District Goals

### 1996-97 Goals

### Progress

The District has a completed, and put into place, curriculum guides in all areas of study. The next step in achieving our goal of improved instruction will be to develop assessment tools that test student knowledge at all levels and insure that exit outcomes are being met. The Strategic Plan has been, and will continue to be, the guiding foundation to the coordination of exit standards, curriculum, instruction and for the district. Ongoing review of curriculum, instruction, and assessment will allow for continued improvement.

Technology, incorporated into the instructional model for staff and students, continues to be a high priority. Our Schools were successful in our endeavor to obtain a grant from the Idaho Technology Committee of Learning.

Improving teacher competencies and student learning in the area of technology and other content areas will be a result of the funding provided by the grant.
